

Milton Wainwright

Over Forty Years of Publishing Scientific Papers

RECENT PAPERS ON ASTROBIOLOGY

Wainwright, M., Weber, P.K., Smith, J.B., Hutcheon, I.D., Klyce, B., Wickramasinghe, N.C., Narlikar, J.V. and Rajartnam, P. (2004). Studies on bacteria-like particles sampled from the stratosphere. *Aerobiologia* **20**, 237-240.

Wickramasinghe, NC, Wainwright, and Wickramasinghe, JT (2004). Panspermia (2003). *New Horizons Proceedings of the Society of Photo-Optical Instrumentation Engineers (SPIE)* 5163, 222-234.

Wickramasinghe, N.C., Narlikar, J.V., Wickramasinghe, J.T. and Wainwright, M. (2004). The expanding horizons of cosmic life. *Proceedings of SPIE Conference 4859* (In Press).

Wainwright, M., Wickramasinghe, N.C., Narlikar, J.V., Rajaratnam, P. and Perkins, J. (2004). Confirmation of the presence of viable but non-culturable bacteria in the stratosphere. *International Journal of Astrobiology*, **3**, 13-15.

Narlikar, J.V. Wainwright *et al.*, (2003) Balloon experiments to detect microorganisms in outer space *Astrophysics and Space Science* **285**, 555-562.

Wainwright, M. (2003). A microbiologist looks at panspermia. *Astrophysics and Space Science* **285**, 563-570.

Wickramasinghe, N. C., Wainwright, M. and Narlikar, J. (2003) SARS-a clue to its origin *Lancet* **361**, 1832.

Wainwright, M. (2003). Panspermia true or false? *Lancet* **362**, 407.

Wainwright, M., Wickramasinghe, N.C., Narlikar, J.V. and Rajaratnam, P. (2003). Microorganisms cultured from stratospheric air samples obtained at 41km. *FEMS Microbiology Letters*, **218** 161-165.

Narlikar, J.V., Wickramasinghe, N.C. and Wainwright, M. (2003). Detection of microorganisms at high altitudes. *Current Science* **85**-23-30.

Wainwright, M., Al Harbi, S. and Wickramasinghe, N.C. (2006). How do microorganisms reach the stratosphere? *International Journal of Astrobiology* **5**, 13-15.

Wainwright, M. (2005). Astrobiology-- a useful oxymoron *Microbiology Today* November, p1.

Shivaji, S., Chaturvedi, P., Kuresh, K., Redy, C.B.S., Wainwright M. *et al.* (2006). *Bacillus aerius* sp. nov. isolated from cryogenic tubes used for

collecting air samples from high altitudes. *International Journal of Systematic and Evolutionary Microbiology* **56**, 1465-1473.

Wainwright, M. (2007). How do bacteria get to the stratosphere? Proceedings SPIE Conference on Astrobiology, San Diego, 2007.

Wainwright, M. (2008). The high cold biosphere-Microscope studies on the microbiology of the stratosphere. *In Focus –Magazine of the Royal Microscopical Society* **12**, 32-41.

Wallace, M.K., Wainwright, M., Wickramasinghe, J.T. and Wickramasinghe, N.C. (2008) Pitfalls of geocentrism. *Astrophysics and Space Science* **37**,145-146.

Wainwright, M., Leswd, A. and Alshammari,F. (2009). Bacteria in amber coal and clay in relation to lithopanspermia. *International Journal of Astrobiology* **8**,141-143.

Wainwright, M. (2010). Musings on the origin of life and panspermia. *Journal of Cosmology* **5**, 1091-1100.

Wainwright, M. (2010). The forgotten history of panspermia and theories on the origin of life. *Journal of Cosmology*, 7, 1771-1776.

Wainwright, M., Alshammari, F. and Alabri, K. (2010). Are microbes currently arriving to Earth from space? *Journal of Cosmology* 7, 1692-1702.

Alshammari, F. Wainwright, M., Alharbi, K. and Alhabri, S. (2010). Studies on ultrasmall bacteria in relation to the presence of bacteria in the stratosphere. *International Journal of Astrobiology*. **10**, 99-103.

Sulamain Ali Alharbi, Mohammad A. Khiyami, Reda Hassan Amasha, Bassam O. Al-Johny, Hesham Khalil and Milton Wainwright (2013).

Nematodes rotifers tardigrades and diatoms as vehicles for the panspermic transfer of microbes. *Life Science Journal* **10**, 1003-1006.

Wainwright,M. M. (2010). Musings on the origin of life and panspermia. *Journal of Cosmology*, **5**, 1091-1100.

Wainwright, M. (2014). Astrobiology: Prescient words on comets and life. *Nature*, **516**, 329-329.

Wainwright, M., Alharbi, S. and Alabri, K. (2011). Panspermia-Nature's exercise in microbial cultivation on a vast scale. *Journal of Cosmology*, **16**, 6711-6717.

Wainwright, M. and Alshammari, F. (2010). The forgotten history of panspermia and theories of life from space. *Journal of Cosmology*, **7**, 1771-1776.

Wainwright, M., Alshamari, F. and Alabri, K. (2010). Are microbes currently arriving to Earth from space? *Journal of Cosmology*, **7**, 1692-1702.

Wainwright, M., Rose, C., Baker, A., Wickramasinghe, C. N. and Omairi, T. (2015). Biological entities isolated from two stratosphere launches-continued evidence for a space origin. *Journal of Astrobiology and Outreach*, **3**, 2332-2519.1000.

Wainwright, M., Rose, C., Omairi, K., Baker, A., Wickramasinghe, C. and Alshammari, F. (2014). A presumptive fossilized bacterial biofilm occurring in a commercially sourced Mars meteorite. *Journal of Astrobiology and Outreach*, **2**, 2332-2519.1000.

Wainwright, M., Rose, C. E., Baker, A. J., Briston, J. and Wickramasinghe, C. 2013. Allen Hills and Schopf-like putative fossilized bacteria seen in a new type of carbonaceous meteorite. *Journal of Cosmology*, **22**, 10198-10205.

Wainwright, M., Rose, C. E., Baker, A. J., Briston, J. and Wickramasinghe, N. C. (2013). Typical meteoritic worm-like forms seen in the Polonnaruwa meteorite. *Journal of Cosmology*, **22**, 10152-10157.

Wainwright, M., Rose, C. E., Baker, A. J., Bristow, K. and Wickramasinghe, C. N. (2013). Isolation of biological entities from the stratosphere (22–27km). *Journal of Cosmology*, **22**, 10189-10196.

Wainwright, M., Rose, C. E., Baker, A. J., Bristow, K. and Wickramasinghe, N. C. (2013). Isolation of a diatom frustule fragment from the lower stratosphere (22–27Km)-Evidence for a cosmic origin. *Journal of Cosmology*, **22**, 1063-1068.

Wainwright, M., Rose, C. E., Baker, A. J., Karolla, R. and Wickramasinghe, N. C. (2013). Biology associated with a titanium

sphere isolated from the stratosphere. *Journal of Cosmology*, **23**, 11117-11125.

Wainwright, M., Rose, C. E., Baker, A. J., Karolla, R. and Wickramasinghe, N. C. (2013). Filamentous Biological Entities Obtained from the Stratosphere. *Journal of Cosmology*, **22**, 10206-10210.

Wainwright, M., Rose, C. E., Baker, A. J., Karolla, R. and Wickramasinghe, N. C. (2013). Microspherules and presumptive biological entities found inside the Polonnaruwa meteorite. *Journal of Cosmology*, **22**, 10197-10202.

Wainwright, M., Rose, C. E., Baker, A. J., Karolla, R. and Wickramasinghe, N. C. (2013). More biological entities from the stratosphere including a diatom fragment-Further evidence for a space origin. *Journal of Cosmology*, **22**, 10267-10274.

Wainwright, M., Rose, C. E., Baker, A. J., Karolla, R. and Wickramasinghe, N. C. (2015). Masses staining positive for DNA-isolated from the stratosphere at a height of 41 km. *Journal of Astrobiology and Outreach*, **3**, 2332-2519.1000.

Wickramasinghe, N.C., Wainwright, M., Smith, W., Tokoro, G., AL Mufti, S. and Wallis, M. (2015). Rosetta studies of comet 67P/Churyumov–Gerasimenko: Prospects for establishing cometary biology. *Astrobiology and Outreach*, **3**, 2332-2519.1000.

Wickramasinghe, N. C., Tokoro, G. and Wainwright, M. (2014). Growing evidence for cosmic biology. *Journal of Cosmology*, **24**, 12097-12101.

Wickramasinghe, N. C., Tokoro, G. and Wainwright, M. (2014). The transition from Earth-centred biology to cosmic life. *Journal of Cosmology*, **24**, 12080-12096.

RECENT HISTORY OF EVOLUTION PAPERS

Wainwright, M. (2008). It's not Darwin's or Wallace's' Theory. *Saudi Journal of Biological Sciences* **25**, 1-8.

Wainwright, M. (2009). Charles Darwin and microbes. *Microbiologist*, **10**, 32-35.

Wainwright, M. (2010). Patrick Matthew—from natural selection to the germ theory. *Microbiologist* **11**, 43-45.

Wainwright, M. (2011). Charles Darwin Mycologist and refuter of his own myth. *Fungi* **4**, 12-20.

Wainwright, M and Alharbi, S. A. (2010). The origin of species without Darwin and Wallace. *Saudi Journal of Biological Sciences*, **17**, 187-204.

Wainwright, M. and Alharbi, S. A. 2011. The story of a largely unknown evolution—germ theory hoax. *Saudi J Biological Sciences*, **18**, 311-316.

RECENT PAPERS ON THE MICORBIAL THEORY OF CANCER

Wainwright, M. (2002). Do fungi play a role in the aetiology of cancer? *Reviews of Medical Microbiology* **13**, 1-6.

Wainwright, M. and Al Talih, A. (2003). Is this the historical “cancer germ”? *Medical Hypotheses*, **60**, 290-292.

Wainwright, M. (2006). The potential role of non-virus microorganisms in cancer. *Current Trends in Microbiology* **2**, 48-59.

Wainwright, M. (2011). The overlooked link between non-virus microbes and cancer. *Science Progress*, **93**,393-402.

PEER REVIEWED RESEARCH PAPERS ON ENVIRONMENTAL MICROBIOLOGY

Wainwright, M. and G.J.F. Pugh (1973). The effect of three fungicides on nitrification and ammonification in soil. *Soil Biology and Biochemistry* **5**, 577-584.

Wainwright, M. and G.J.F. Pugh (1974). The effects of fungicides on certain chemical and microbial properties of soils. *Soil Biology and Biochemistry* **6**, 263-267.

Pugh, G.J.F., J.I. Williams and M. Wainwright (1975). Effects of fungicides on microbial activity in soils. Colloquium, 5th International

Soil Science Society Prague (1973). *Progress in Zoology*. Czech Academy of Science, Prague, 17-22.

Wainwright, M. and G.J.F. Pugh (1975). Changes in the free amino acid content of soil following fungicide treatment. *Soil Biology and Biochemistry* **7**, 1-4.

Wainwright M. and G.J.F. Pugh (1975). Phenol auxins and Erlich reactors in soils. *Soil Biology and Biochemistry* **7**, 287-298.

Wainwright, M. and G.J.F. Pugh (1975). Effects of fungicides on numbers of micro-organisms and frequency of cellulolytic fungi in soil. *Plant and Soil* **43**, 561-572.

Wainwright, M. and G.G. Kowalenko (1977). Effects of pesticides, lime and other amendments on soil ethylene. *Plant and Soil* **48**, 253-258.

Wainwright, M. and F.J. Sowden (1977). Influence of fungicide treatment on CaCl_2 -extractable phosphorus and phosphate solubilizing micro-organisms in soil. *Plant and Soil* **48**, 335-345.

Wainwright, M. (1978). A modified sulphur medium for the isolation of sulphur oxidizing fungi. *Plant and Soil* **49**, 191-193.

Wainwright, M. (1978). Sulphur oxidizing micro-organisms on vegetation and in soils exposed to atmospheric pollution. *Environmental Pollution* **17**, 167-174.

Wainwright, M. (1978). Distribution of sulphur oxidation products in soils and on *Acer pseudoplatanus* growing close to sources of atmospheric pollution. *Environmental Pollution* **17**, 153-160.

Wainwright, M. (1979). Effects of pesticides and N-Serve on the oxidation of elemental sulphur in soil. *Plant and Soil* **51**, 205-213.

Wainwright, M. (1979). Microbial S-oxidation in soils exposed to heavy atmospheric pollution. *Soil Biology and Biochemistry* **11**, 95-98.

Wainwright, M. (1979). Assay of phenol o-hydroxylase activity in soil. *Soil Biology and Biochemistry* **11**, 549-551.
